Subject: Don't Go There With Me - Ever Again

*Dedicated to all those living off our birth rights
Who are like butterfly collectors*

*Gathering up our private and public property
Killing the flower & spirit of the land
Locking up our gifts of minerals, timber, recreation, animal & fowl
For urban pleasure and power
Pinning & framing what is beautiful & free to a wall
Killing the flowers of free choice for all*

Don't Go There With Me - Ever Again

*Don't mess with me
I know my rights
You can't have
My private or public property*

*Don't touch me or my property
For reasons contrived or true
Nor my wages & my birth rights
Nor my beautiful treasures in this life, I grow & accrue*

*Don't encroach upon my land
Nor my home or my privacy
Don't try to convert my unalienable rights
Into illegitimate takings upon my family*

*Don't play with me
Transforming my rights
Using pompous green or animal fantasies
Stealing my family property*

*Don't go there again
Poisoning the sacred laws of our land
My birth rights created this land
Not environmental, fish, fowl or social bands*

*Get out of my life
Government or municipal corporations have no rights
Upon my home, my water, my flowers, my land*

Stay far far away from my sovereignty

Don't steal from me or my family

With man made CON..gressional takings

*Fraudulent and extorted taxing, permitting, licensing, codes,
ordinances forced by tyranny*

Stay far far away from me, government only destroys beauty

Don't overlay my sacred rights

Calling it "law, acts, ordinances, safety, security" forced with fines

Nor try to convert my God given birth rights

Into political debauchery using unconstitutional & unnatural

Don't go there with me again

With slight of hand using adhesion debauchery

While bankrupting my family

And taking my land

What is it about freedom

You don't understand

Can you not grasp

Un..lienable rights & un...lienable land

*Don't try to trump my sacred birth rights
Nor my God given sovereignty
Turning my rights into your privileges
By warring upon me & my family ... constantly*

*Don't take advantage of me
When I am down
Or transform my rights
Into political wrongs*

*Do not try to make me less free
By taking my property for another's security
Don't go there with me
By taking from "A" and giving to "B"*

*Stay away from me
When I am in private, in partnership or in family
Do not overlay your treachery
Upon, my family, my animals or my sanctuary*

*Don't war upon my privacy
With your legal fiction entities
Your artificial corporate municipalities
I am not your employee, I am sovereign & free*

*Don't try to convert or over lay my unalienable rights
From allodial and patent titles such
Into fee simple tripe*

Do not try to turn my flowers & diamonds into rust

No uninformed jurist

Not knowing his nullifying rights

No teacher, state employee or extremist

May touch me or judge me as much as he might

My property is part and parcel of my family

God given to me

Even before we were a country

We acquired property to be allodial & free

Natural born & free with individual sovereignty

Are We

Natural born state Citizens given allodial rights

To our property, our wages, our family

Before the progressive laws of the land

Before the old common law

There was a natural law of the land

God given bestowing the flower of freedom

*No one may take a rose from me
 No corrupted city, county, state or artificially created entity
 No legal fiction over lays or progressive positivism debauchery
 No unConstitutional, unCommon & unNatural laws
 May be overlaid upon me, my family, my privacy or my property*

*We will soon be free
 From taxes, regulations, acts, ordinances, licenses & codes forced
 Legal only upon the government corporate municipality employees
 Indeed
 You can never ever touch the natural born state Citizens, sovereign*

*Government corporate municipalities
 Chartered to rule only over their own employees*

*Corporations have absorbed the state
The sovereign & free are foreign aliens to both indeed*

*Do you remember, will you again forget
These precious treasures, these divine gifts
You swore upon your honor and your life to protect
My unalienable rights do not come second*

*Municipal government employees
And those living in federal territories
Have no rights & are not free
Nor may they bargain or "represent" away my sovereignty*

*You can no longer bind me
Nor gerrymander my free choice
Nor tell me how to manage my property
Nor can you continue to threaten my voice*

*I am a non resident alien to the federal land
My private property, wages, home & land can never be
By any CONgressional, educational, special interest demand
My natural rights cannot be taxed for the privileges of the many or*

Eleven bills were introduced during 1998 to 2001

*To eliminate the unconstitutional IRS & it's un-American activity
 What would have happened if they were to succeed
 The natural born, state Citizens would be sovereign & free*

*In 1967, congress tried to abolish the illegitimate 14th Amendment
 What would have happened if they were to succeed
 We would revert back to state Citizens
 300 million state Citizens would be freed*

*Four state high courts have declared
 Property taxes are unconstitutional and cannot be laid
 Upon the private property owner, his land or his home
 Taxes are only upon privileges not rights*

*Taxing, "zoning", "buffering", "endangering", "labeling" of private
 property
 All unNatural, unCommon, unConstitutional, unGodly
 Absolutely unnecessary political debauchery has come true
 Requiring perverted, criminal & treasonous tyrannical rule*

*Now remember, never ever again.... forget
 Your God given gifts
 These absolute, untouchable, enumerated & unalienable bundle of
 That we have died for - That we will surely fight for & die for again*

*Jack Venrick
 Enumclaw, Washington*

Concord, Massachusetts North Bridge where the rural farmers out gunned the British regulars and sent them running.
